Routledge International Handbook of Investigative Interviewing and Interrogation

Edited By **Dave Walsh, Ray Bull, Igor Areh**

This handbook provides readers with coverage of the various interview and interrogation techniques used across the world with victims, witnesses, and suspected offenders. It includes exclusive coverage on countries rarely, if ever, previously reported upon in the literature to any substantive depth. This handbook will be an essential reference text across criminology, criminal justice, policing and investigation studies, and law.

'It is unique in its global reach and will doubtless be a stand out text for academics, policy makers and trainers alike.'

Laurence Alison, *Professor of Psychology, The University of Liverpool*

'This book provides a comprehensive overview of investigative interviewing techniques in over 40 different countries, shedding light on the diverse legal systems, traditions and cultures that shape these practices. By bringing together international experts, this book offers valuable insights that can help improve investigative interviewing practices on a global scale, making it an essential resource for law enforcement professionals, researchers, and policymakers.'

Ivar Fahsing, *Chief Superintendent, Norwegian Police and Associate Professor at the Norwegian Police University College*

'This volume provides an indispensable contribution to the need for international standards on investigative interviews in investigations. Its main merit is the extensive empirical study of how interrogation actually works in more than 40 countries studied.'

Juan E. Mendez, *Professor of Human Rights Law in Residence, (Former UN Special Rapporteur on Torture (2010–2016)), Washington College of Law*

TABLE OF CONTENTS:

Introduction Part 1: Investigative interviews and interrogations with suspects, victims and witnesses 1.Interviewing of witnesses, victims, suspects in the Czech Republic Hedvika Boukalová and Julie Gábršiová 2.How cool can Mendez get?
